

SH Basically, I show up on Friday nights. Then if anybody gets hurt, then we go out and make sure there is nothing broken or blood and just basically do a first-aid-type thing. Usually other teams have doctors, too, if not, I take care of it, and send them to the hospital if they need to or we sit them out and usually its more cramps or being out of shape.

S Okay, so you're on the field during games?

SH Correct.

S Are you ever out there during practices?

SH Uh, very seldom. I watch the scrimmages last week, no, two weeks ago; 7-on-7 with St. Mary's and Franklin; the first time I've ever done that.

S How do you know when you are supposed to be at a game and where your supposed to go for contact...

SH Usually, it's, I was actually a vice principal here.

S You were a vice principal here?

SH The vice principal. I think is um Moran or Myone (?). He called me up. He usually hands me a sheet and a card pass.

S Where is your office located?

SH Just down the street.

S What...

SH 2707 East Fremont Street, Suite No. 6.

S How long have you been at that address?

SH Since 1990. April of 1990.

S In addition to showing up for games and the occasional practice, let me ask you this, have you ever been asked to come out to a practice to look at a player?

SH No.

S Okay. In addition to showing up at practices and games, do you provide any other chiropractic services to Franklin High School football players?

D Isn't there a privacy and confidentiality sheet?

S I'm not specifically asking about a player right now, it's just generally speaking.

I take care of a lot of people. I take care of St. Mary's kids that come over. I take care of Addison players that come over. Franklin players that come over. Lodi, \_\_\_\_, people, they've heard about how well I do with injured players and they show up. Not just Franklin comes over. I mean...

S Okay. In your answer then, Franklin High School players would be included in some of the players that have come over, and when I say come over, they come to your office?

SH To my office, correct.

S Okay. Do you recall ever treating any players that you understood had transferred here from American Samoa?

D I am concerned about the privacy issue. We're narrowing this down to a smaller and smaller pool of people and I think you need to get permission, you know, for disclosure of any medical treatments. This is the right that the patient holds and, you know, we're not in the position to waive it. And, I'm sure that Dr. Hayes knows that he's not...

SH \_\_\_ violation, I could lose my license over any undisclosed, unless they sign something.

S Are you concerned about answering that particular question?

SH No, I take care a lot of people. I mean, I have no problem. My thing is, you mean transferred in? I have no idea what you're talking about. I just take care of kids that come in. I don't ask about their ethnicity because I treat all of them. I take care all of them. I shouldn't say treat because we don't treat \_\_\_ but basically, we take care of all races.

S Have you had the opportunity to ever talk to any of the parents of anyone you understood was a kid from American Samoa?

SH No.

; Have you talked to any of, have you tried to make contact with any parent of anyone \_\_\_ from American Samoa?

SH No.

S Alright, thank you sir. Take care. Thank you for coming in. I'm sorry about taking your time.
