## THE INJUNCTION

The district attorney's office likens gang members to urban terrorists, arguing that a civil injunction would help authorities abate the public

nuisance caused by gang members who engage in drive-by shootings, assaults, robberies, drug trafficking and vandalism. Prosecutors have named 20 members of the Deep South Side Norteños in the injunction. Authorities may begin enforcing the injunction against 10 members, a judge said Thursday. They may be arrested if they engage in 14 banned behaviors.
