Claim Form Addendum

What did entity or employee do to cause tis loss, damage, or injury?

In May 2017, I was solicited by an appointed official of the City to engage in unethical activities intended to undermine the 2017 City Manager recruitment/selection process, whereby I was requested to influence the selection of the next city manager to the benefit of the appointed official who was a candidate for the position. After refusing, I became the subject of continuous criticism and character attacks by the appolnted official and supporters of the official, amounting to a hostile work environment.

In June 2017, after becoming aware that the appointed official was continuing the unethical pursuit to influence the outcome of the City Manager selection process through solicitation of other parties who may be weighing-in on the selection process, I reported the conduct to elected officials. My action was met with immediate bullying and retaliation by the elected officials and collusion between the elected and appointed officials to engage in a cover-up and further retaliation. The adverse work condition became so severe I was forced to retire from employment earlier than scheduled, thereby loosing salary and benefits over a six week period.
